Activity at advancing prices in Rock leiand common and preferred surprised the Street. Why anybody should want to buy the shares of a company which, to buy the shares of a company which, according to one of its directors, is nothing but a shell, caused much comment. But accompanying the buying of the shares was a rumor that the Amster committee intended to offer Rock Is-

Activity in Rock Island Common and
Preferred a Surprise to
the Street.

New York, Nov. 22.—The stock market
displayed a strong undertone today although dealings were light and largely professional. Brokers reported that stocks seemed to be in scant supply and in demand on all recessions.

COTTON MARKETS.

New York, Nov. 21.—Cotton was quiet and irregular today. Late in the day a weaker tone at New Orleans and a rumor that local deliveries on December contracts were likely to recently received as a report of a better demand for the spot actiled. There was some further evening up of December contracts, but at the prevailing premiums on later months. One private dispatch says spots at New Orleans were held separated.

Spot here was 5 points lower at 11.78, with sales of 100 bales. Spot at Liverpool was in good demand at a decline of 7 points on the basis of 6.99 for middling uplands. Further there closed steady, net unchanged to half point higher.

Port receipts for the day a weaker tone at New Orleans and a rumor that local deliveries on December contracts when they to be destinated and prices ruled slightly easier. Steel Shorts Getting Nervoss.

The action of Steel common in fluctuation between 86 and 88 without indications of a definite trend is evidently getting on the nerves of the short interest in the stock. This short interest must be very apprehensive for they have started an anohymous propagands attacking the shares. Stock exchange interests and market writers today received a card on which in small but heavy type the following was printed:

"U. S. Steel.

"2.72 per cent.

"The above is the yearly average received in fifteen years of the greatest prosperity America has ever seen."

Distilleries securities corporation stock was reactionary and lost one point. A director told the writer today that the board would ordinarily meet next month to take action relative to starting dividends on the stock. He, however, is inclined to believe that payments will be deferred and earmings used as working capital to previde facilities for increased business.

ity? Are you in physical and mental condition for the position? Have you the necessary education, the trained mind, the physical and mental reserves needed for the work you would have to do? In short, are you equal to the demands of a responsible position?

Ity? Are you in physical and mental in knowledge through papers, magazines and books at every opportunity. Skip the sensational, the foolish, the meaning-less twaddle in the papers, the cheap superficial stuff in magazines and books. Pack in the kinds of intellectual food.
